- 4.2 In the past four quarters (January 1<sup>st</sup> to December 31<sup>st</sup> 2008) the handling of those applications eligible for inclusion on the PS1/2 “major applications” return is: 48% being determined within the 13 week target period. This is compared against a national target set by DCLG of 60%. This figure represents a slight increase in performance when compared with the last quarterly performance report in which the Corporation returned an annualised rolling average of 41% (October 1<sup>st</sup> 2007- September 30<sup>th</sup> 2008).

5.3. Table 2 shows, during the operating period, that out of the 455 decisions made by the Corporation, 446 applications were granted and nine were refused permission. This demonstrates the positive role of the Corporation in successfully negotiating schemes with agents and developers.

5.4. 400 applications were decided by the Director of Planning under delegated powers, with the remaining 55 being determined by the Corporation's Planning Committee.

5.5. The Corporation is now asked to submit its performance statistics for publication by DCLG. Table 4 shows these formal figures and highlights performance on determining major applications.

5.6. Table 4 demonstrates that when considering PS1/2 data for LTGDC performance in determining MAJOR applications then the running total for the current statistical year is 12 out of 24 such cases have been decided within the 13 week target period. This gives a performance figure of 50% for year in progress (2008- ending Mar 31 2009).

5.9. This table separates housing and employment figures contained in approved schemes (where permission has been formally granted) from those schemes that are pending the finalisation of their S106 agreements. The figures currently show an overall total of 6565 predicted dwellings from LTGDC applications of which 1210 or (18%) are affordable units. A further 1551 units are contained in schemes which are pending the S106's of which 733 or 47% are affordable dwellings. This brings the total housing pipeline to 8116 residential dwellings of which 1943 or 24% will be affordable.

5.10. Schemes considered by the Corporation also show a predicted net employment gain of 8649 jobs to date distributed across the Lower Lea Valley and London Riverside.

## 6. Appeals 2008

- 6.1. Since the last quarterly report, one new appeal case (against non-determination within 13 weeks) has been lodged with the Planning Inspectorate. This is LTGDC-08-010-FUL Devon Wharf, Leven Road, Tower Hamlets. The proposal is for the erection of 4/5 and 14 storey buildings to provide 1,000 sq m of commercial space comprising one unit for use as A1 (Shop) or A2 (Financial and professional services) and 14 B1 (Business) units together with 66 residential units, 21 car parking spaces, landscaping and riverside walkway.
- 6.2. Two appeal cases have been withdrawn. The first is LTGDC-07-138-OUT the appeal case for the Minoco Wharf site and the proposed comprehensive mixed use development which was due to be reviewed at a public inquiry on the 7th of October. The case was to be jointly defended by the Corporation and the London Borough of Newham. - 6.3. The second appeal to be withdrawn is LTGDC-07-169-FUL- 75 - 77 Chequers Lane Dagenham and this follows the granting by the Corporation of a substitute scheme for the site.
- 6.4. Please see Table 6 for a complete list of appeals handled by the Corporation during the last year.
