

PLANNING COMMITTEE MEETING: THURSDAY MAY 13TH 2010

PLANNING PERFORMANCE MONITORING: QUARTER 4

REPORT BY THE DIRECTOR OF PLANNING

1. SUMMARY

- 1.1. This is the fourth and final quarterly report of 2009-2010 to advise Members of the performance of the Corporation's development control function.
- 1.2. The value of performance monitoring is the ability to identify strengths and weaknesses and thus evaluate the reasons for performance changes, as well as to identify possible anticipatory action.

RECOMMENDATION

It is RECOMMENDED that the contents of this report are noted.

2. DATA

- 2.1. The data is obtained from the Corporation's electronic records of planning cases which have been registered since the granting of planning powers in October 2005.
- 2.2. The data highlights performance through each complete year of the Corporation's function. A breakdown of the current performance year is also shown.
- 2.3. The information presented is based on the performance of the Corporation in handling all formal planning decisions for which it is the decision making authority. Additional information is presented in relation to planning appeals in which the Corporation is involved.

3. REPORT STRUCTURE

- 3.1. This report comprises the following sections :
 - ◆ Development Control Performance- tables shown include the number of applications, the speed of decision-making, a breakdown of decisions made and a breakdown of applications under consideration.
 - ◆ Housing & Employment Data- tables provided are based upon data contained within formal planning applications. Please note that where data has not been provided then an estimate based on the size and density of the application has been included.
 - ◆ Appeals- a table is provided of planning appeal cases in which the Corporation is actively involved.

4. KEY FINDINGS

- 4.1. The figures currently show an overall total of 11,467 predicted dwellings from determined LTGDC applications of which 3064 (or 27%) are affordable units. A further 2,233 units are contained in schemes which are pending their S106 agreements, of which 574 (or 26%) are affordable dwellings. This brings the total housing pipeline to 13,700 residential dwellings of which 3,638 (or 27%) will be affordable.
- 4.2. Development yielding an estimated net employment gain of 13,111 jobs has also been approved (1,507 of which are subject to completing S106 agreements).
- 4.3. In the past four quarters (April 1st 2009 to March 31st 2010) the handling of those applications eligible for inclusion on the PS1/2 "major applications" return is: 65% being determined within the 13 week target period or 76% when including applications determined according to the "agreed timescales" contained in a Planning Performance Agreement (PPA).
- 4.4. The return to DCLG excludes PPA applications whose targets are met from the figures and therefore the Corporation will return the **65% figure**. This is to be compared against a national target set by DCLG of 60%.
- 4.5. This figure represents a 15% increase in overall performance when compared with the last quarterly performance report in which the Corporation returned an annualised rolling average of 50% (Jan 1st 2009- Dec 31st 2009).

CORPORATION PERFORMANCE DATA

Development Control Performance

Table 1: Showing The Total Number Of Planning Applications Handled

2005-2009		On Hand At Start	Received	Withdrawn	Decided	On Hand At End
①	Year 1 2005-2006	0	48	0	9	39
②	Year 2 2006-2007	39	184	13	92	118
③	Year 3 2007-2008	118	295	33	206	174
④	Year 4 2008-2009	174	144	17	177	124
⑤	Year 5 2009-2010	124	141	12	114	139
⑤	Of Which Are PPA's	9	11	2	8	10

- 4.6. 598 planning decisions have been issued by the Corporation to date. 24 decisions have been made in the last quarter and 7 of these relate to the PS1/2 Planning Performance statistics for processing MAJOR applications. The speed with which the UDC has determined these is shown in Table 3 further below.
- 4.7. This table now records figures for the proportion of Corporation applications which contain a PPA (Planning Performance Agreement). PPA's were introduced by DCLG as a means of improving the delivery of large scale applications. This followed a successful pilot project which showed that PPA's added value to the planning system by improving the planning process through better project management. The evidence showed that they give greater certainty on timescales, costs and requirements for all parties involved in the process.
- 4.8. In the last quarter the Corporation determined two MAJOR planning applications which were subject to a PPA. In both cases the terms and timescales of the PPA were successfully met. This brings the total for the statistical year to 8 PPA's - all concluded successfully.
- 4.9. A further 13 planning cases have been resolved by the Corporation planning committee but remain on hand pending the finalisation of S106 agreements.

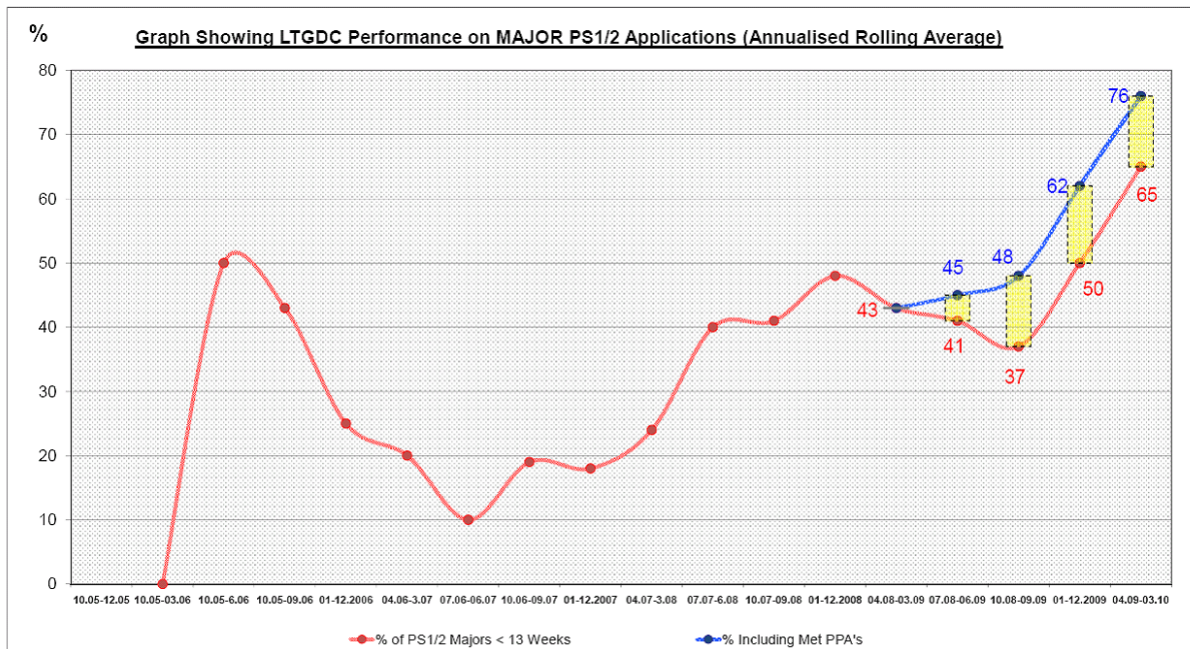

Table 2: Showing The Basic Breakdown Of Decisions Issued by the Corporation

2005-2009		Decided	Granted	Refused	Delegated
①	Year 1 2005-2006	9	9	0	9
②	Year 2006-2007	92	90	2	79
③	Year 3 2007-2008	206	200	6	180
④	Year 4 2008-2009	177	174	3	157
⑤	Year 5 2009-2010	114	109	5	84

- 4.10. Table 2 shows, during the operating period of the LTGDC, that out of the 598 decisions made 582 applications were granted and 16 (3%) were refused permission. The running total for the current year is 5 refusals from 114 determinations (4%). This demonstrates the positive role of the Corporation in successfully negotiating schemes with agents and developers.
- 4.11. 509 applications were decided by the Director of Planning under delegated powers, with the remaining 89 (15%) being determined by the Corporation's Planning Committee.
- 4.12. The Corporation is asked to submit its performance statistics for publication by DCLG. The following table 3 and graph (further below) show these formal figures and highlight performance on determining MAJOR applications.
- 4.13. Table 3 demonstrates that when considering PS1/2 data for LTGDC in determining MAJOR applications then the total for the current statistical year (Apr 2009- Mar 2010) is 11 out of 17 such cases have been decided within the 13 week target period. 8 cases further cases were decided over 13 weeks but were subject to a PPA agreement and all 8 met their agreed timescales. These are therefore now excluded entirely from the DCLG return. This gives a finalised performance figure of **65%** for the statistical year ended March 31st 2010 compared against a national target set by DCLG of 60%.
- 4.14. This is also shown visually in the graph following Table 3 which displays the annualised rolling performance across each last four complete quarters (i.e. the calendar year March 2009- April 2010).

Table 3: Showing The Speed Of Decision-Making

2005-2009		All ≤13 W	All >13W	Statutory MAJORS ≤13W	Statutory MAJORS >13 W
①	Year 1 2005-2006	1 (11%)	8	0 (0%)	0
②	Year 2006-2007	45 (49%)	47	4 (20%)	16
③	Year 3 2007-2008	102 (49.5%)	104	6 (24%)	19
④	Year 4 2008-2009	64 (36%)	113	13 (43%)	17
⑤	Year 5 2009-2010	56 (49%) & 8 Met PPA's	58	11 (65%) & 8 Met PPA's (76%)	6 & 0 Unmet PPA's

Housing & Employment Data

Table 4a: Showing Housing Data To Date (October 31st 2005 – March 31st 2010)

Housing		London Riverside	Lower Lea Valley	Total Predicted Dwellings
★	TOTAL GRANTED	<u>4,629 (1762)</u>	<u>6,838 (1302)</u>	<u>11,467 (3064)</u>
★	TOTAL PENDING S106	<u>230 (0)</u>	<u>2003 (574)</u>	<u>2,233 (574)</u>
★	GRAND TOTAL	<u>4,859 (1762)</u>	<u>8,841 (1876)</u>	<u>13,700 (3638)</u>

Table 4b: Showing Employment Data To Date (October 31st 2005 – March 31st 2010)

Employment		London Riverside	Lower Lea Valley	Total Net Jobs
★	TOTAL GRANTED	<u>7,259</u>	<u>4,910</u>	<u>12,169</u>
★	TOTAL PENDING S106	<u>117</u>	<u>825</u>	<u>1,507</u>
★	GRAND TOTAL	<u>7,376</u>	<u>5,735</u>	<u>13,111</u>

- 4.15. Table 4 shows housing & employment data gathered from information supplied by the applicant within their formal planning applications. Please note that where data has not been provided then an estimate based on the size and density of the application has been included based on research conducted by ARUPS for English Partnerships.
- 4.16. This table separates housing and employment figures contained in approved schemes (where permission has been formally granted) from those schemes that are pending the finalisation of their S106 agreements.
- 4.17. The figures currently show an overall total of 11,467 predicted dwellings from determined LTGDC applications of which 3064 (or 27%) are affordable units. A further 2,233 units are contained in schemes which are pending their S106 agreements, of which 574 (or 26%) are affordable dwellings. This brings the total housing pipeline to 13,700 residential dwellings of which 3,638 (or 27%) will be affordable.
- 4.18. Schemes considered by the Corporation also show a predicted net employment gain of 13,111 jobs to date distributed across the Lower Lea Valley and London Riverside.

5. Appeals 2009/2010

5.1. Please see Table 5 for a complete list of appeals handled by the Corporation during the last 12 month period.

Table 5: Showing Appeals Handled By The Corporation Between 1st April 2009 and 31st March 2010

5.2. Since the last quarterly report no new appeal cases have been lodged.

5.3. At present there are no appeals cases pending against decisions or resolutions of the Corporation. The Corporation continues to maintain a 100% success rate in defending such cases.
